PROJECTS (Completed)

Hospital Management System – Java Swing
Fully functional HMS contains all the options. From the admission of a patient to discharge everything done digitally. 3-layer system of Admin, Management & Doctor. Admin controls everything from adding management and doctors & other things.

School Management System – Java Swing
Fully functional SMS contains all the options. From the admission of a Student to Last day of his everything done digitally. 3-layer system of Admin, Management & Doctor. Admin controls everything from adding management and doctors & other things.

Library Management System – Java Swing
Fully functional LMS contains all the options. Here Admin & Librarian can add students only. Students can issue books, return them and also be able to see the available book lists and so on...

Logo & Banner Design – Adobe Photoshop CC
Created the Logo and Banner of a function for the University Program and among others mine was selected.

PROJECTS (In progress)

Tourism BD App – Java

School Management System – C# & ASP.NET
